MECHANICS RANGE: INSPIRED BY THE BEAR, EMBLEM OF THE COVERGUARD® BRAND

Our 4 new models of MECHANICS gloves are equipped with **reinforcements on the palm**, like the pads of a bear paw. Their locations have been studied to protect at best **the sensitive areas of the hand**.

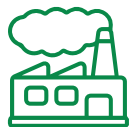

Silicone inserts on the fingers like bear's claws allow grip and adherence.

WHAT AREAS?

Construction

Industry

1CHMD00

CUT PROTECTION / HANDLING WORK

EUROCUT MX100

EN388:2016
+ A1:2018

3.X.4.3.D.
